Deputy Commissioner's Office,
Kolar District,
Dated 25th August 1888.

To,

The Chief Secretary to the
Dewan of Mysore.

Sir,

With Reference to your Official Memorandum No 231 of the 31st Ultimo, forwarding for Report a petition from Virapiah of Kolar, I have the honor to state that the petitioner and another Naranappa having removed salt earth from the marginally noted Government waste lands in the Kolar Taluk for the manufacture of earth salt, the Deputy Commissioner Mr. Lockhart seems to have during the Jamabundy of the Taluk for last Fasli ordered the recovery of full assessment thereon from the said individuals under Section 4 of the Rules published with the Government Notification No 113, dated the 15th July 1881. Naranappa agreed to pay the full assessment as ordered. But Virapiah contends that he would pay the assessment only on the portions wherefrom he scraped salt earth for making salt. The total extent

Name of Village & Number of Land | Assessment

Herewith returned with its enclosures.

Received by the Petitioner or Naranappa

of the land from parts of which the petitioner removed the earth is 13½ candies, while that actually used by him is only 5 candies odd, the proportionate assessment of which is Rupees 50-5-0. The liability of paying the full assessment on a number used for the purpose does not appear to have been explained to him at the time the licence was granted. Under these circumstances I submit Arapiah may be allowed to pay the assessment on the portions used by him this time. In future the liability may be distinctly noted in the licences issued and the rule enforced strictly.—

2. The Vernacular file is submitted for reference.—

I have the honor to be
Sir,
Your most Obt. Servant,
Abdul Rahman
Offg. Deputy Commissioner

Cause No. 941

Sir,

I have the honor to transmit herewith for your information a copy of the undermentioned paper.

His letter No. 1109/344 dated 25th August last, reporting upon the petition from Viraswamy of Kolar.

The Deputy Commrs order that the petitioner should pay the assessment of the Survey Nos on which he manufactured Earth-salt, is correct; the Petitioner however says that others who manufacture salt in Kolar, do not pay thus for the whole Nos, but for the portions of the Survey Nos on which salt-

salt is manufactured:
The Deputy Commissioner
will enquire into this
point & report.

The file of Vernacular
papers received with the
above is herewith returned
for reference & resubmission
with his reply.

Petition No: 2195 of the 21st December 1888 from Virasami of Kolar

This Office comp. No. 941 of the 5th Sept. 1888 to the Dy: Com.r of Kolar.

Order 24/12/88

As a special case the Petitioner's liability may be restricted to the assessment on portion of the Lo: he used for collecting salt earth as recommended by the Dy: Com.r of Kolar in his letter No: 1109 of the 25th August 346 1888.

The same rule may be applied to other similar cases now pending. In future greater care should be taken in depicting the tracts to be given for removal of salt earth, and the assessment on it should be entered in the licences granted.

General No. 2110 } 188
No. 587

Sir,

With reference to the Docket at camp No 941 of the 5th September last, calling for further report on the petition of Virapiah Kolar, I have the honor to submit herewith for information and obliging return, the Kolar Amildar's Memo No 850 of the 4th instant, with its enclosures, from which it appears that the lands referred to by the petitioner as used by others in manufacturing earth-salt, not having assessed lands, no charge has been made for the use thereof

for

for the purpose.

2. If they were arable lands, an assessment with reference to the neighbouring lands showed, under the rules, have been fixed on them and levied from the licensees. This will be pointed out to the Amildar for his future guidance.

3. The rules, it is presumed, do not contemplate the charge on government unarable waste lands on which the earth-salt is manufactured.

4. The distinction made by the Petitioners, namely, the liability of the License-holder to pay the full assessment on the number on which the salt is actually manufactured, i.e. the number on which the salt pans exists, and to pay the proportionate assessment on the number from portions of which salt-earth is removed for making earth-salt, is in my humble opinion, a reasonable one, but the object of the rules being, as I understand, to put down the manufacture of earth-salt as far as possible, and most probably with the same object as does seem by Mr. Godbole, for the levy of full assessment, on the lands from portions of which the Petitioners had merely scraped salt-earth, I recommended in my last letter that the Petitioners case might be favorably considered as a special one.

5. The question raised by the Petitioners is, however, worth consideration, and the rules may well be relaxed so as to reduce the liability of payment of full assessment (say by one-fourth) in the case of arable lands from which or portions whereof surface salt-earth is scraped off for the manufacture
